

Bow set

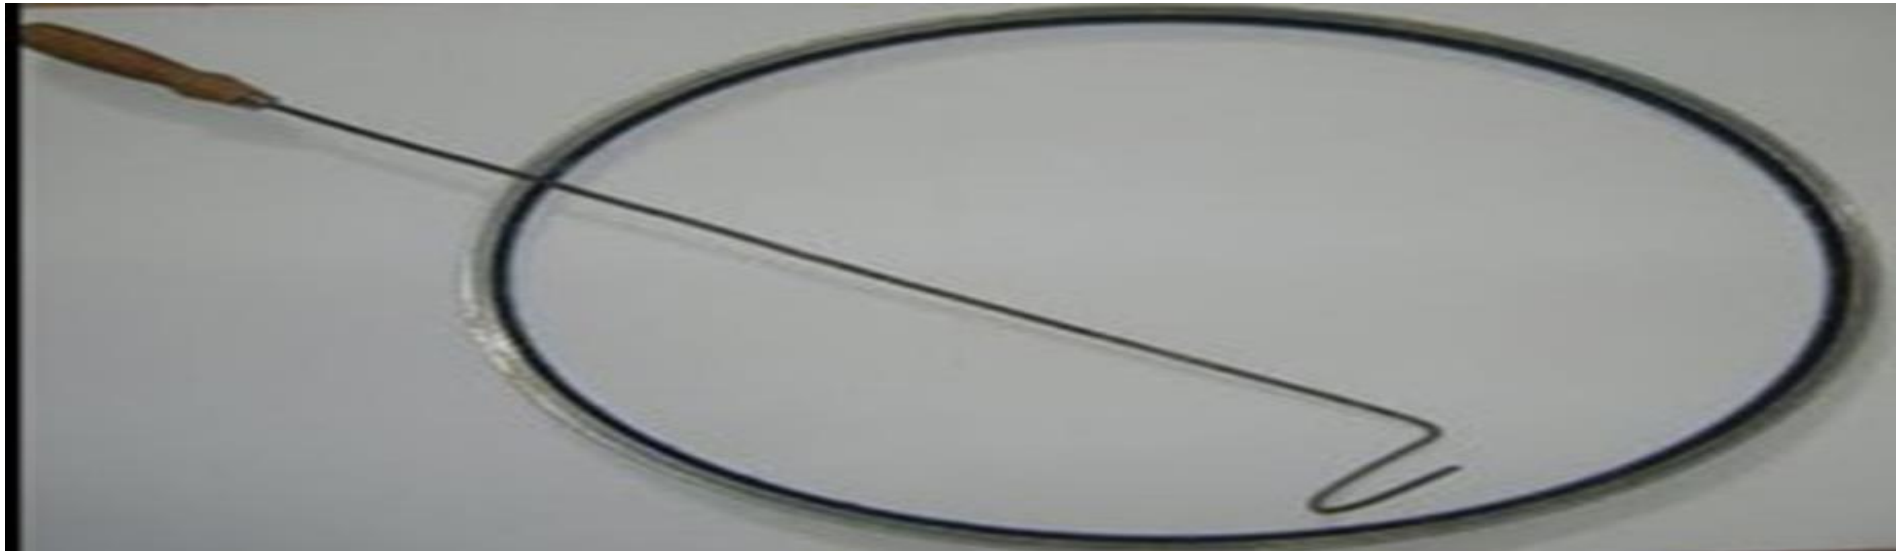

Operation

- Participants - individual.
Development - players travel a certain route looking to control the arc with the hook.
- Rules - if the player loses control of the arc must start over where he has lost control.

Achievement

- The hook has on the tip a certain character to fit the arc.
- It fits under the bow, then, with one hand holding the bow and the other holding the hook, we push the bow slowly and try to find control / balance.

About...

- Traditional games relate to people's ancient lives, they reached us verbally, from generation to generation over the time.
- The instruments provided were iron, stick, coulter, rope, etc.
- This was when the children were still playing on the street.

Other Traditional Games

- The mesh game.
- The rope game.
- The donkey game.
- The monkey game.
